

Shobhit Goyal

Pune | Shobhitgoyalg@gmail.com | 9760610987

Highly skilled and results-driven Software Engineer with four years of experience in the industry. Proficient in utilising Java, SpringBoot, Microservices, RestApi and MSSQL to deliver robust and efficient software solutions. Adept at analysing complex problems and implementing innovative solutions. Committed to continuous learning and staying updated with the latest technologies. Strong collaborator and effective communicator, capable of working in cross-functional teams to deliver exceptional results.

SKILLS

- **Backend Technologies:** Java 8, SpringBoot, JPA, Microservices, Spring Security, JUnit, Mockito, Rest APIs, .Net Core (Beginner)
- **Front-end technologies:** HTML, CSS, Bootstrap 4/5
- **Databases:** MSSQL
- **Tools:** Datadog, IntelliJ Idea, Docker (Beginner)
- **Version control systems:** Git
- **CI/CD tools:** Jenkins

EXPERIENCE

BlueConch Technologies (Now UST Global)

Pune, India

Api-Migration

Software Engineer

5 June 2023 to 4 Aug 2023

- Worked in Api migration team mentoring a team of 4 members. Quickly adapted to technology even without having prior experience in .Net.
- Played a major role as a contributor and mentor in the project, successfully migrating approximately 15 APIs from .NET 2/3 to .NET 6.
- Acted as the primary point of contact (POC) for troubleshooting and problem-solving, assisting team members with any challenges they encountered during their work.
- Involved in all phases of SDLC like development, testing and deployment.
- Helped the team in identifying issues that occurred while migrating the project and provided optimised solutions.

Technologies/Tools - .Net core, MSSql, GitHub

BlueConch Technologies (Now UST Global)

Pune, India

API Development Team

1 July, 2019 to 5 June, 2023

Software Engineer

- Involved in all phases of development lifecycle such as designing, development, testing and deployment.
- Worked in Agile environment.
- Responsible for developing Rest Apis and writing unit tests for the same using JUnit5 and Mockito
- Created/Modified Stored Procedures, Tables in SQL and effectively used within application and developed complex sql queries.
- Have experience of collaborating with OnShore client and resolving the production issues in real time, maintaining high client satisfaction and minimising downtime.
- Successfully handled numerous complex Root Cause Analysis (RCAs) involving in depth analysis of multiple code bases. Provided optimised solutions to address identified issues, enhancing system performance and stability.

Technologies/Tools - Java 8, Spring Boot, Hibernate/JPA, Spring Security, JUnit, Mockito, Github, ServiceNow, Datadog, Salesforce
